# M'Goun Global Geopark Unesco Celebrating The World Cleanup Day

The World CleanUp Day is a movement of citizens without borders that unites the public, companies, schools, communities and world associations around a positive and festive action by collecting waste that pollute our environment daily.

Participation of M'Goun Geopark Global Unesco  
In  
The World Cleanup Day - 19th September 2020 -

We can set an example by taking our gloves and bag and going to the nature. Moreover, We should not think about picking up other people's waste; the only waste we could have put in our garbage can quickly end up in our bag a few miles away. Without knowing it, that's well be the source of behavior change.

To create a brighter post-covid world, M'goun Geopark marked his presence by celebrating the World cleanup day in many places in our territory.

# The World Cleanup Day Celebrating-Geopark go to school

- Waste collection in Ait Bougumez
- Cleaning up the world is a way to bring together people from different generations and professions.

# M'Goun Global Geopark Unesco Celebrating International Mountain Day

The celebration of World Day is an opportunity for Geopark M'Goun to do an environmental activity. Last activity in the mountain day was a large-scale afforestation and waste collection campaign to preserve the environment and contribute to the cleanliness of the tourist geosites.

# International Mountain Day Celebration

Organization of an awareness campaign and cleanliness at the Geo-Touristic site of Ouzoud in collaboration with the Regional Council of Beni Mellal Khénifra, the municipality of Ouzoud and some local associations and students of the Ouzoud college.

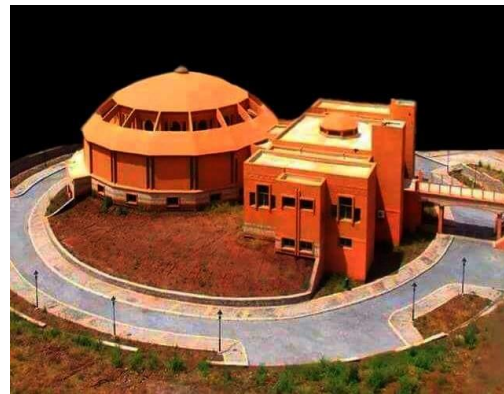

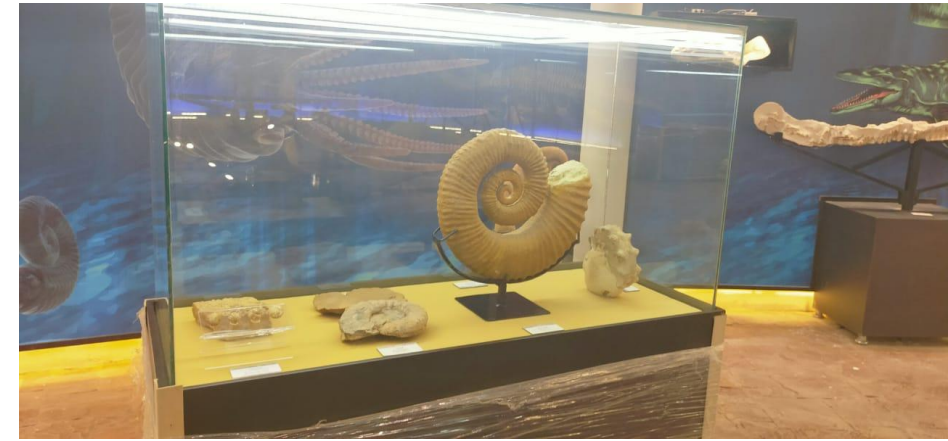

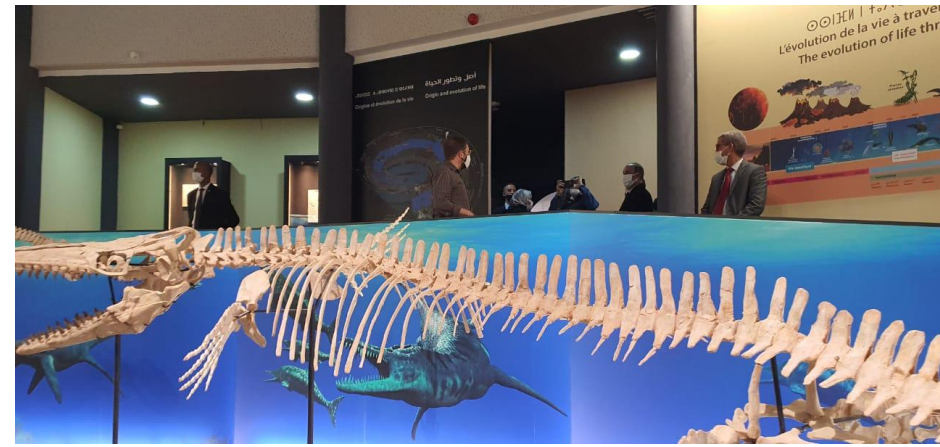

# activités de sensibilisation et d'éducation à l'environnement

- Organization of awareness days for high school students

# Museum of Geopark M'Goun

The Azilal Museum is a central component of the M'goun Geopark. It is an excellent structure, distinguished by its architecture and its domes from all the buildings in the region. It will be an exhibition space of the natural, geological, archaeological, cultural and landscape heritage of the M'Goun Geopark.

# Creating the Geopark M'Goun club of mountain and water sports

# Museum Visit by the Moroccan Tourism minister and Embassy of Switzerland delegation

The Minister of Tourism, accompanied by Mr. Wali and the President of the Regional Council Beni Mellal Khenifra, Mr. governor of AZILAL and Ambassador of Switzerland in Morocco, visited the Geopark Museum, where they gave detailed explanations about the museum's components.

# Museum Visit by a Delegation from the American Embassy in Morocco

The delegation declares that they have seen something that they never had seen. A Special monuments and special cultural and naturel heritage
